About Us

Deep-rooted past, strong future...

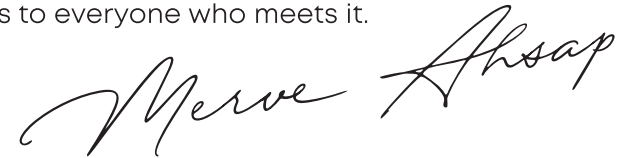

We started our adventure as raw material - semi-finished products, from the trees that are used in all areas of life and that we have carefully selected for you. We are now taking firm steps forward by adding furniture, decoration and special design products. With 70 years of experience and YOUR trust, we strive to be the best.

We attach importance to R&D studies to add value to your home, office and garden. We bring the art from nature to you; We prepare original designs, special orders, furniture designed according to your wishes with great care and send them to many parts of the world.

We find corporate solutions for our Raw Material - Semi-Finished products in our factory, which is located on 9 acres of land in Akyurt, Ankara. We bring our wooden legs and semi-finished products together with our customers in many different countries around the world.

We are proud of being an accessible and reliable company at all stages of the service you receive, from the order process to the after-sales processes.

The Axis model, with its cabinet systems extending up to the ceiling, which allows to achieve maximum volume in small spaces by pushing the limits, evaluates lost spaces and gives life-refreshing ideas to everyone who meets it.

A handwritten signature in black ink, reading "Merve Ahsap". The signature is fluid and cursive, with the first name "Merve" and the last name "Ahsap" clearly distinguishable.

Production Note

Our products can be produced in desired sizes.

In wooden products, the shape and pattern of the tree will vary, so the product may not be exactly the same as in the image.

Asya Table

Tables

Soft and flowing outlines.

Excellent, high-quality tables. There was no discussion about it. But no one knew what story was lying behind the product. We offer not only a desk design, but also a complete lifestyle. In our opinion, rustic is not a style, but a lifestyle.
